Read the text slowly. The words on the bingo cards are highlighted.

BEFORE THE STORY

Welcome to Rho Bingo!

In a moment you will hear a short story about our company. Each of you has received a bingo card with different words.

Here's how to play: each time you hear a word from your card, cross it out. As soon as you have four crossed-out words in a line – across, down or diagonally – shout “BINGO!” and raise your card so we can check it.

THE STORY

Rho's story began over **40 years** ago. Since then, the company has helped advance **clinical research**, supported **science** and worked with **experts** all over the world. You could say that Rho grew up together with modern **medicine**.

At Rho, we believe the best things come from **collaboration**. That's why every day **specialists**, **researchers**, **statisticians**, **programmers** and many others come together here to solve **challenges** as a **team**. Sometimes at a **desk**, sometimes in an **online meeting**, and sometimes over a good cup of **coffee**.

Our **mission** is to improve **health**, extend lives and raise people's **quality of life**. It sounds serious, but that is exactly why we value **creativity**, **innovation** and a **positive attitude**. Because the best **ideas** often appear when someone dares to look at a problem from a completely different angle.

As a company, we focus on **honesty**, **trust** and **relationships**. We value people who think independently, but who can also work as a **team**.

Growth is very important to us. We learn new things, gain **experience** and we are not afraid of **change**. **Flexibility** matters, because the world keeps racing forward. Luckily, we have people full of **energy**, **passion** and **commitment**, who can find their way even in the most surprising situations.

Our work helps **clients**, **researchers** and, above all, **patients**. It is for them that new **solutions** and **therapies** are created. Every project is another step towards a better **future**.

So what makes Rho unique? According to the company, it is the so-called **Cohesion Effect**: the power of connections between people, **science** and a shared purpose. We could simply say: **great people** doing important things together.

That's why, regardless of role, department or location, we are all one **team**. And today's **Family Day** is a perfect opportunity to meet the people we work with every day, and to show our loved ones where we spend a big part of our time.

Thank you for being here with us today! And remember: if you complete a line while listening, shout “BINGO!” out loud.
